

EP SMF® - BD & RD, MFC

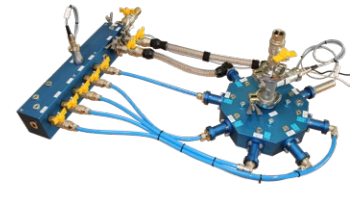

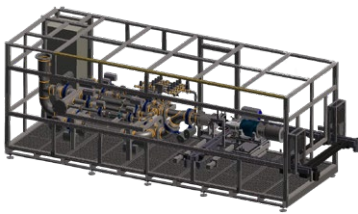

SonicMasterFlow®

EPE-160452

Block & Register Design, Mobile Flow Calibrator

Made in GERMANY

SMF®- BD SonicMasterFlow - Block Design			
SMF®5- BD SonicMasterFlow® Vacuum operation	Datasheet 159062	Calibration rig with up to 8 sonic nozzles - Block Design Flow generation up to 5 m³/h Nozzle equipment according to customer requirements	
SMF®18- BD SonicMasterFlow® Vacuum operation	Datasheet 159071	Calibration rig with up to 8 sonic nozzles - Block Design Flow generation up to 18 m³/h Nozzle equipment according to customer requirements	
SMF®- RD SonicMasterFlow - Register Design			
SMF®- RD SonicMasterFlow® Compressed air operation	Datasheet 147364	Test bench with sonic nozzles - Register Design Up to 7 nozzles in overpressure operation Air mass flow up to 1000 kg/h Operation with compressed air or other gases	
SMF®- RD SonicMasterFlow® - AMP Vacuum operation	Datasheet 160342	Calibration rig with sonic nozzles - Register Design Fully automatic operation with sample handling Highest accuracy by operation with conditioned air - 0.15% 10 nozzles with atmospheric suction with vacuum pump 1 nozzle with inlet pressure control	
SMF®- MFC SonicMasterFlow - Mobile Flow Calibrator			
SMF®- MFC Mobile Flow Calibrator Compressed air operation	Datasheet 160352	SonicMasterFlow® Mobile flow calibration with sonic nozzles Operation with air or other gases in overpressure 3 sonic nozzles with inlet pressure control Mass flows up to 80 kg/h	
SMF®- MFC Mobile Flow Calibrator Vacuum operation	Datasheet 147164	SonicMasterFlow® Mobile flow calibration with sonic nozzles Operation with vacuum pump and atmospheric suction Up to 8 sonic nozzles can be combined Flow range 18 m³/h
